

## Tool: Recognizing Microaggressions and the Messages They Send

Microaggressions are the everyday verbal, nonverbal, and environmental slights, snubs, or insults, whether intentional or unintentional, that communicate hostile, derogatory, or negative messages to target persons based solely upon their marginalized group membership (from *Diversity in the Classroom*, UCLA Diversity & Faculty Development, 2014). **The first step in addressing microaggressions is to recognize when a microaggression has occurred and what message it may be sending. The context of the relationship and situation is critical.** Below are common themes to which microaggressions attach.
