Washington, DC 20510

The Honorable Charles Schumer
United States Senate
322 Hart Senate Office Building
Washington, DC 20510

Dear Senators Hatch and Schumer:

The undersigned organizations who provide services to America's youth — including mentoring programs, summer camps, out of school time programs, sports and aquatic programs, clubs, and more — write to express our overwhelming support for the Child Protection Improvements and Electronic Life and Safety Security Act (CPIA). This legislation will create universal access to national FBI fingerprint background checks of potential volunteers and staff of youth-serving organizations and other nonprofits supporting vulnerable populations.

Organizations providing critical services to youth must be able to effectively, affordably, and reliably screen their volunteers and employees to ensure they do not have an inappropriate criminal past that might endanger the young people they serve. Utilizing an FBI fingerprint background check as part of a comprehensive screening is the most complete and reliable means of checking an individual's criminal record, and is the only type of background check that is truly available on a nationwide basis. **Unfortunately, the current background check system is not universally accessible for youth-serving organizations.** Less than half of states allow a wide range of youth-serving organizations to access these national searches. Even in states where FBI searches are accessible, they are often prohibitively expensive and time-consuming.

We know from the PROTECT Act Child Safety Pilot that FBI searches provide information that is absolutely critical for screening youth-serving volunteers and employees. Results from the pilot showed that more than 6 percent of the nearly 105,000 volunteers screened with FBI searches had criminal records of concern — including extremely serious crimes like child sexual abuse, cruelty to children, and even murder. In addition, more than 41 percent of individuals with criminal records had crimes in states other than where they were applying to volunteer — meaning that only a nationwide check would have revealed these serious criminal offences.

CPIA would build on the lessons learned through the Child Safety Pilot and finally provide universal access to FBI fingerprint background checks for all youth-serving organizations wishing to use them. The bill creates an efficient way for youth-serving organizations to access FBI fingerprint checks at a reasonable cost with optimized turnaround time.

We fully support this legislation and will do whatever we can to ensure its passage in the 114th Congress. Thank you again for your leadership on this issue.

Sincerely,
