

This document serves as a resource of open-ended questions that caring adults can utilize to support a youth user of the ASA Futurescape platform.

RECOMMENDED POTENTIAL FUTURES:

This section of ASA Futurescapes provides an opportunity for the mentor to share about their work history. During the discussion, you can highlight the transferable skills that you learned and explain how you have used those skills in multiple professional positions. Also consider asking the mentee some of the following questions:

- What did you think of that personality results the platform shared with you?
- How do you feel about the futures that ASA Futurescape recommended?
- Where do you see yourself adding to the fields/careers that ASA Futurescape recommended?
- Do you know in these careers?
- If these potential futures are interesting to you, how can I be helpful in making a connection happen?
- How do you want to move forward in exploring these recommendations?
- What if you worked in one of the recommended industries for a while, can you see a connection to one of the industries and the previous goals you have shared with me before?

TIP: Encourage Mentee to use the “help” button to understand the tiered set up of the “Recommended Potential Futures Page”

HELP & SEARCH BUTTONS:

Consider asking the mentee some of the following questions to guide them into further exploration of the platform’s function:

- How did the help button come in handy to you during the exploration of the ASA Futurescape App?
- Which career fields did you find most interesting and why?
- Which jobs did you click on and explore? What did you find under the description that inspired you to save a job card or go back and look at something else?
- What’s the difference between an industry, field, and job?
- What if you aren’t interested in any of the recommended potential futures, do you know how else you can use ASA Futurescape?
 - o Answer: you can use the search button to type in a job that you are interested in and get more information

JOB CARD:

Consider asking the mentee some of the following questions to guide them into further exploration of the tool:

- What did you expect the Job Card to tell you about?
 - o Did you get a chance to click the feed button and see the resources & video clips connected to the job card?
- Was there something missing from the job card that you want answered?
- How do you want me to help you get connected to a career path you are interested in?
- How many job cards have you saved?
- Are there any patterns of themes stick out to you about the job cards you have saved?
