Mentoring LGBTQ+ Youth: An Urgent Need for Action
March 21, 2024
Tips for Engagement

Webinar Buddies!
1. Post your name & email on the Excel Sheet.
2. Find someone who doesn't have another person next to theirs. Put yours next to it!
3. Follow up with one another in a couple weeks to see how they’ve been using this knowledge!

- Introduce yourself!
- Talk with one another
- Share resources
- Respond to presenters

- Ask the presenters questions
- Upvote questions you’d like to see answered

* This webinar will be recorded and sent out with the slides.
# 2024 CMWS: LGBTQ+ Series

This is the first part of a three-part series taking place over the course of 2024.

<table>
<thead>
<tr>
<th>Date</th>
<th>Event Description</th>

</table>

### March 21: Research and Policy (A Call to Action)
- Research on Lived Experiences
- Proposed laws
- A Commitment to Action

### July 19: Personal Actions (Ally as a Verb)
- Personal Tools to Being an LGBTQ+ Ally
- Relationship Tools: Supporting Assets of PRIDE in LGBTQ+ Youth

### November 20: Organizational Actions (Creating Inclusive and Affirming Programs)
- Inclusive and Affirming Policies and Practices
- Steps for Organizational Change Toward Inclusion
- Resources and Actions
Agenda

1. Welcome and Introductions
2. Research on the Lived Experiences of LGBTQ+ Youth
3. Our Current Climate: A Closer Look at Anti-LGBT Laws
4. What does this Mean for you?
5. Ally as a Verb: Actions You Can Take Now
Nia Clark, M.S.W.

Practitioner
• Mentoring Coordinator, LifeWorks/ Los Angeles LGBT Center
• Direct Care Counselor, Community Living Program, MA
• Activities Coordinator, The Home for Little Wanderers

Trainer
• Foster/Congregate Care
• LGBTQ Competency
• Mentoring
• Therapeutic Crisis Intervention (TCI)
• Trauma-Informed Care (TIC)
• Restorative Justice
• DEI/JEDI

Consultant
• Big Brothers Big Sisters of America
• Human Rights Campaign Foundation
• Consulting Producer- MTV Documentary Film, Transformation
• University of Nebraska – Lincoln
Dr. Christian Rummell

**Research**
- Principal Consultant, Mentorist
- Dissertation Scholar, Center for Interdisciplinary Mentoring Research at Portland State University
- Research expertise: LGBTQ youth homelessness, LGBTQ youth juvenile justice, LGBTQ youth mentoring

**Training/Technical Assistance**
- Director of Training and Technical Assistance, MENTOR
- Training Associate, National Mentoring Center at Education NW
- Training Specialist, Social Policy Research Associates
- Co-author of LGBTQ youth supplement to Elements of Effective Practice

**Program Management**
- Program Director, “I Have a Dream” Foundation--Oregon
- AmeriCorps Leader, Corporation for National and Community Service
- AmeriCorps Member, Dover Housing Authority

1. Go to menti.com on your phone, tablet, or computer
2. Enter Code: 7254 3498
3. Answer questions!
JAMEY: “It Gets Better”
Moment of Silence
Research on the Lived Experiences of LGBTQ+ Youth
LGBTQ+ Demographics

9.5 percent of all young people growing up today (ages 13-17).

Intersectionality: LGBTQ+ Youth reflect broad spectrums of identities.
Sexual Orientation Milestones (LGB)

1. Becoming aware of queer attractions
2. Questioning one’s orientation
3. Self-identifying as LGB+
4. Engaging in sexual activity
5. Coming out to others
6. Having a romantic relationship

Gender Identity

“Self-recognition of gender identity develops over time, much the same way a child's physical body does. Most children's asserted gender identity aligns with their assigned gender (sex). However, for some children, the match between their assigned gender and gender identity is not so clear.”

<table>
<thead>
<tr>
<th>Age</th>
<th>Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>Age 2</td>
<td>Children become conscious of the physical differences between boys and girls</td>
</tr>
<tr>
<td>Before 3rd birthday</td>
<td>Most children can easily label themselves as either a boy or a girl.</td>
</tr>
<tr>
<td>By age 4</td>
<td>Most children have a stable sense of their gender identity.</td>
</tr>
</tbody>
</table>

Research on Trans Children

Trans Youth Project (Princeton)/ Dr. Kristina Olson

300 Children from 45 states and Canada for 20 years (first longitudinal study of trans children)

Early findings:

• “Results so far show that trans children have just as firm a sense of their own gender as nontrans kids at very early ages, both when asked directly and when tested. Furthermore, trans kids follow different trajectories than children who simply prefer toys and clothes associated with the opposite gender.”

• “In addition to helping uncover the roots of gender, early results of these studies suggest that trans kids who are supported through early social transitions have strong mental health and self-esteem.”
What do LGBTQ+ youth experience while growing up?
Home

- 4 in 10 LGBTQ+ youth were out to all of their parents/guardians
- Half of trans and gender-expansive youth report that their family never uses correct pronouns (1 in 7 say their family always does so)
- Rejection at home:
  - Taunting/mocking for being LGBTQ+ (36.2%)
  - Speaking negatively about being LGBTQ+ (43.6%)
  - Making them feel bad about being LGBTQ+ (45.0%)

Source: Human Rights Campaign, 2022
Effects of Rejection at Home

LGBTQ youth who have experienced family rejection are: 8.4 times more likely to report attempting suicide, 5.9 times more likely to report high levels of depression, and 3.4 times more likely to report illegal drug use. (Ryan et. al. 2009)

LGBTQ youth had a 120 percent higher risk of reporting homelessness compared to youth who identified as heterosexual and cisgender (Chapin Hall, 2017)

30% of youth in child welfare identify as LGBTQ+ and 5% identify as trans ((Williams Institute, 2019, Youth.gov)

40% of incarcerated girls identify as LGB (Movement Advancement Project, 2017)
Majority of students (81%) reported feeling unsafe

Nearly all students (97%) reported hearing anti-gay remarks in school

Majority of students also heard homophobic remarks from their teachers/school staff (58%) and negative remarks about gender expression (72%)

76% reported verbal harassment

31% were physically harassed

Source: GLSEN, 2022
Effects of Victimization at School

❑ Were nearly three times more likely to miss school in the last month
❑ Felt lower levels of belonging
❑ Performed poorer academically
❑ Were more likely to say they did not plan to pursue higher education or trade school
❑ Were more than twice as likely to be disciplined at school
❑ Had lower levels of self-esteem
❑ Experienced higher levels of depression

Source: GLSEN, 2022
Well-Being

• 45% of LGBTQ+ youth considered suicide in the last year
• 75% reported symptoms of anxiety
• 58% reported symptoms of depression
• 82% wanted to receive mental health care
• 60% of LGBTQ+ youth who wanted care were not able to access it. This includes nearly 3 in 5 transgender and non-binary youth

Source: Trevor Project
The Context: LGBTQ+ Minority Stress Model

Circumstances in the environment

General Stress
- Family
- School
- Health
- Community

Positive Coping Skills + Social Support (individual, interpersonal, community)

Minority Identity
- Lesbian, Gay, Bi, Pan, Asexual, etc.
- Trans, Nonbinary, Gender Diverse, etc.

Distal Stress (External)
- Anti-LGBTQ Discrimination (individual, community, social, legal)
- Anti-LGBTQ Violence

Mental Health Issues
Isolation
Substance Use

Minority Status
- Sexual Orientation
- Gender/Sex Assigned At Birth
- Gender Expression

Proximal Stress (Internal)
- Expectation of Rejection
- Concealment of identity
- Internalized homophobia/biphobia/transphobia

On average, one LGBTQ+ young person attempts suicide every 45 seconds
How Do We Change These Outcomes?

What does research say about what makes a difference?
<table>
<thead>
<tr>
<th>Family and Adult Acceptance</th>
<th>School Climate</th>
<th>Affirming Laws/Communities</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Supportive Homes</strong></td>
<td><strong>Supportive Climates</strong></td>
<td><strong>Supportive Policies</strong></td>
</tr>
<tr>
<td>• Greater self-esteem</td>
<td><strong>Supportive school climates</strong> (Representation/visibility, policies—nondiscrimination, confidentiality) resulted in lower reports of suicide attempts (<a href="#">Hatzenbuehler, 2011</a>)</td>
<td>Supportive laws are associated with improved health outcomes in LGBTQ+ people and additional groups of marginalized populations (<a href="#">Hatzenbuehler, 2009</a>)</td>
</tr>
</tbody>
</table>
| • Reduced risk-taking     | Presence of GSAs versus No GSA identification of Supportive educators (>11)  
  - Greater belonging to school community  
  - Higher levels of belonging  
  - Higher levels of self-esteem, lower levels of depression and lower likelihood of considering suicide in last year ([GLSEN, 2021](#)) | LGBTQ youth who live in a community that is accepting of LGBTQ people reported significantly lower rates of attempting suicide ([Trevor Project, 2022](#)) |
| behaviors                  | Presence of GSAs in schools resulted in reduction in bullying and increases in feelings of support (peers and teachers) ([Day et al, 2019](#)) | |
| (Family Acceptance Project)| | |

**LGBTQ youth with at least one accepting adult were 40% less likely to report a suicide attempt in the last year ([Trevor Project, 2019](#)).**
# Examples of Affirming Climates and Relationships

<table>
<thead>
<tr>

Ryan, C., GLSEN
Anti-LGBT Laws

A closer look at proposed laws and their impact on youth-serving organizations
- 479 Proposed Anti-LGBT Laws since the start of 2024 as of March 15th
- >500 sponsored in 47 states (2023)
- National State of Emergency for LGBTQ+ Americans (Human Rights Campaign)
## Proposed Laws (As of August 2023)

Examples of laws that have been proposed in states across the US.

<table>

“566.400. 1. A person commits the offense of contributing to social transition if the person is acting in his or her official capacity as a teacher or school counselor and the person provides support, regardless of whether the support is material, information, or other resources to a child regarding social transition.

2. The offense of contributing to social transition is a class E felony.

3. As used in this section, the following terms mean:

(1) "Child", a person under eighteen years of age;

(2) "Social transition", the process by which an individual adopts the name, pronouns, and gender expression, such as clothing or haircuts, that match the individual's gender identity and not the gender assumed by the individual's sex at birth
Learn about Laws in Your State

ACLU: Tracking Attacks on LGBTQ Rights in U.S. State Legislatures.
How are these laws changing the way you provide services to LGBTQ+ youth?

1. Go to the ACLU tracker page.
2. Look up laws that have been proposed in your state.
3. In chat box:

   • Share what this law means for LGBTQ+ youth in your care
   • Share how this law might change services and programming that you are offering.
Potential Impacts on Youth Serving Programs

- Increased levels of distress in LGBTQ+ youth
- Greater need for support and care
- Increased feelings of mistrust (program, school)
- Limits on confidentiality and collecting sensitive data
- Decreased visibility of LGBTQ+ role models and resources
- Restrictions on inclusive spaces
- Limits on ability to affirm identities
- More limited peer connections and spaces of belonging
- Conditions of fear
- Restricts access to assets associated with growth and development

A Call to Action: Your Personal Commitment

1. Commit to being an Ally (Ally:Verb)
2. Know the issues and continue raising your own awareness
3. Raise awareness in your networks and your program (Invite in, humanize LGBTQ+ youth)
4. Advocate for LGBTQ+ young people in your community and state
Reflection

Share one thing you learned from this session

Share one action you commit to doing before our next CMWS session on LGBTQ+ youth (July 19)
